

Internships Available

Dear Student:

We are currently accepting applications for the 2016 summer season. This position is more than raking bunkers and hand watering. At The Valley Club, we are genuinely interested in your personal goals and development as turf managers. Interns are given individualized training plus a hands-on understanding of course maintenance, including equipment operation, irrigation scheduling, and small crew management.

The Valley Club is an exclusive 27-hole facility designed by Hale Irwin and Tom Fazio. Our location provides endless opportunities and locations to go hiking, backpacking, mountain biking, whitewater rafting, or landing a trophy Rainbow Trout on the Big Wood River. Summer in Sun Valley is an unforgettable experience.

Candidates must be currently enrolled in a two or four year turf or turf related program and should possess qualities such as punctuality, a strong work ethic, and a willingness to go above and beyond our members' expectations. Interns are paid \$14.00/hour plus overtime and free housing is available on site.

If interested, resumes with references may be e-mailed to thevalleyclub96@gmail.com.

The Valley Club Mission Statement

“The Valley Golf Club is committed to the care and concerns of our members and providing the finest service and amenities in a positive and professional manner. To that end, The Valley Club encourages its employees to strive each day to anticipate, meet, and attempt to exceed the expectations of members and their guests. The Valley Club encourages employees to use imagination, thoughtfulness and creativity in performing more mundane and extraordinary tasks.”

Housing

Housing for interns is located on site in a 2 bedroom cabin that includes a living room, TV, kitchen with appliances, couch, chairs, and beds. Interns would need to bring pillows, towels, hangers, alarm clock, laundry supplies, and computer.

The Valley Club Intern Experience

The Valley Club is a private 27 hole Tom Fazio and Hale Irwin design. In full season, our staff consists of approximately 35 members. The courses have bent/poa greens, bluegrass tees and fairways and receive around 20,000 rounds a season.

As a turf maintenance staff we will provide interns with detailed hands on training in all aspects of golf course maintenance. Our goal is to facilitate a learning environment where interns will interact with the superintendent, assistants, equipment manager, irrigation tech, and other crew members on a daily basis.

Interns will gain valuable insight and experience throughout the season both through their work and their involvement in the "behind the scenes" planning, managing, and record keeping of a successful golf maintenance operation.

The ideal candidate is highly motivated, willing to work long hours, and isn't afraid to ask questions. The club's expectations are very high so attention to detail is a must.

Intern responsibilities will include:

- **Course set-up** – cup changing, tee marker setup, and pin placement
- **Equipment operation** – tees, fairways, greens, rough, roller, sandpro, and tractors
- **Irrigation management** – Rainbird central control with Part-ES Link
- **Irrigation troubleshooting & repair** – Pipe fixes, head & drip irrigation repairs, satellite troubleshooting
- **Crew supervision** – Small crew management on projects and weekends
- **Chemical and fertilizer** – Calibration and application
- **Special projects** – ???

Compensation/Benefits:

- \$14.00/hr. + OT.
- Average work week 50-70 hours.
- Housing available on site.
- Uniforms - golf shirts, sweat shirt, safety gear, and a hat
- Golfing privileges on Mondays.

About Sun Valley

Sun Valley is located in the heart of the Sawtooth Mountain Range and is home to a world class ski resort. With outdoor activities ranging from rock climbing, biking, hiking, fishing, and kayaking, there is always plenty to do.
